SELECTED SOCIAL CHARACTERISTICS IN THE UNITED STATES

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Lenoir city, North Carolina			
	Estimate	Margin of Error	Percent	Percent Margin of Error
<b>HOUSEHOLDS BY TYPE</b>				
Total households	7,215	+/-310	7,215	(X)
Family households (families)	4,591	+/-246	63.6%	+/-3.7
With own children of the householder under 18 years	1,876	+/-234	26.0%	+/-3.5
Married-couple family	3,140	+/-286	43.5%	+/-4.0
With own children of the householder under 18 years	1,118	+/-219	15.5%	+/-3.1
Male householder, no wife present, family	230	+/-113	3.2%	+/-1.6
With own children of the householder under 18 years	108	+/-82	1.5%	+/-1.1
Female householder, no husband present, family	1,221	+/-231	16.9%	+/-3.2
With own children of the householder under 18 years	650	+/-177	9.0%	+/-2.5
Nonfamily households	2,624	+/-336	36.4%	+/-3.7
Householder living alone	2,378	+/-314	33.0%	+/-3.5
65 years and over	1,119	+/-191	15.5%	+/-2.4
Households with one or more people under 18 years	2,132	+/-226	29.5%	+/-3.5
Households with one or more people 65 years and over	2,398	+/-277	33.2%	+/-3.3
Average household size	2.40	+/-0.10	(X)	(X)
Average family size	3.05	+/-0.14	(X)	(X)
<b>RELATIONSHIP</b>				
Population in households	17,329	+/-160	17,329	(X)
Householder	7,215	+/-310	41.6%	+/-1.8
Spouse	3,191	+/-290	18.4%	+/-1.7
Child	5,160	+/-362	29.8%	+/-2.0
Other relatives	1,081	+/-274	6.2%	+/-1.6
Nonrelatives	682	+/-235	3.9%	+/-1.4
Unmarried partner	402	+/-161	2.3%	+/-0.9
<b>MARITAL STATUS</b>				

Subject	Lenoir city, North Carolina			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Males 15 years and over	6,679	+/-275	6,679	(X)
Never married	2,167	+/-278	32.4%	+/-3.9
Now married, except separated	3,313	+/-310	49.6%	+/-4.6
Separated	275	+/-107	4.1%	+/-1.5
Widowed	310	+/-119	4.6%	+/-1.8
Divorced	614	+/-184	9.2%	+/-2.7
Females 15 years and over	7,861	+/-254	7,861	(X)
Never married	2,016	+/-322	25.6%	+/-3.9
Now married, except separated	3,347	+/-302	42.6%	+/-4.0
Separated	333	+/-138	4.2%	+/-1.8
Widowed	1,059	+/-227	13.5%	+/-2.8
Divorced	1,106	+/-237	14.1%	+/-2.9
FERTILITY				
Number of women 15 to 50 years old who had a birth in the past 12 months	293	+/-138	293	(X)
Unmarried women (widowed, divorced, and never married)	147	+/-113	50.2%	+/-28.0
Per 1,000 unmarried women	66	+/-51	(X)	(X)
Per 1,000 women 15 to 50 years old	74	+/-36	(X)	(X)
Per 1,000 women 15 to 19 years old	18	+/-30	(X)	(X)
Per 1,000 women 20 to 34 years old	129	+/-69	(X)	(X)
Per 1,000 women 35 to 50 years old	48	+/-51	(X)	(X)
GRANDPARENTS				
Number of grandparents living with own grandchildren under 18 years	410	+/-201	410	(X)
Grandparents responsible for grandchildren	323	+/-205	78.8%	+/-19.5
Years responsible for grandchildren				
Less than 1 year	53	+/-66	12.9%	+/-15.0
1 or 2 years	160	+/-143	39.0%	+/-24.3
3 or 4 years	0	+/-19	0.0%	+/-7.6
5 or more years	110	+/-103	26.8%	+/-22.5
Number of grandparents responsible for own grandchildren under 18 years	323	+/-205	323	(X)
Who are female	161	+/-104	49.8%	+/-6.7
Who are married	289	+/-200	89.5%	+/-11.3
SCHOOL ENROLLMENT				
Population 3 years and over enrolled in school	3,946	+/-403	3,946	(X)
Nursery school, preschool	212	+/-116	5.4%	+/-3.0
Kindergarten	86	+/-62	2.2%	+/-1.6
Elementary school (grades 1-8)	2,152	+/-319	54.5%	+/-5.9
High school (grades 9-12)	828	+/-170	21.0%	+/-4.1
College or graduate school	668	+/-221	16.9%	+/-4.9
EDUCATIONAL ATTAINMENT				
Population 25 years and over	12,677	+/-383	12,677	(X)
Less than 9th grade	956	+/-195	7.5%	+/-1.5
9th to 12th grade, no diploma	1,674	+/-270	13.2%	+/-2.1
High school graduate (includes equivalency)	4,040	+/-454	31.9%	+/-3.3
Some college, no degree	2,866	+/-386	22.6%	+/-3.2
Associate's degree	1,152	+/-278	9.1%	+/-2.2
Bachelor's degree	1,321	+/-337	10.4%	+/-2.6
Graduate or professional degree	668	+/-165	5.3%	+/-1.2
Percent high school graduate or higher	(X)	(X)	79.3%	+/-2.5
Percent bachelor's degree or higher	(X)	(X)	15.7%	+/-3.0

West Indian (excluding Hispanic origin groups)	49	+/-60	0.3%	+/-0.3
COMPUTERS AND INTERNET USE				
Total households	7,215	+/-310	7,215	(X)
With a computer	5,347	+/-279	74.1%	+/-3.5
With a broadband Internet subscription	4,961	+/-301	68.8%	+/-4.0

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Ancestry listed in this table refers to the total number of people who responded with a particular ancestry; for example, the estimate given for Russian represents the number of people who listed Russian as either their first or second ancestry. This table lists only the largest ancestry groups; see the Detailed Tables for more categories. Race and Hispanic origin groups are not included in this table because official data for those groups come from the Race and Hispanic origin questions rather than the ancestry question (see Demographic Table).

Data for year of entry of the native population reflect the year of entry into the U.S. by people who were born in Puerto Rico, U.S. Island Areas or born outside the U.S. to a U.S. citizen parent and who subsequently moved to the U.S.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using 2013 data or multi-year data containing data from 2013. For more information, see: Language User Note.

The Census Bureau introduced a new set of disability questions in the 2008 ACS questionnaire. Accordingly, comparisons of disability data from 2008 or later with data from prior years are not recommended. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the Evaluation Report Covering Disability.

Data about computer and Internet use were collected by asking respondents to select "Yes" or "No" to each type of computer and each type of Internet subscription. Therefore, respondents were able to select more than one type of computer and more than one type of Internet subscription.

The category "with a broadband Internet subscription" refers to those who said "Yes" to at least one of the following types of Internet subscriptions: Broadband such as cable, fiber optic, or DSL; a cellular data plan; satellite; or a fixed wireless subscription.

An Internet "subscription" refers to a type of service that someone pays for to access the Internet such as a cellular data plan, broadband such as cable, fiber optic or DSL, or other type of service. This will normally refer to a service that someone is billed for directly for Internet alone or sometimes as part of a bundle.

"With a computer" includes those who said "Yes" to at least one of the following types of computers: Desktop or laptop; smartphone; tablet or other portable wireless computer; or some other type of computer.

In 2016, changes were made to the computer and Internet use questions, involving the wording as well as the response options. A crosswalk was used to map pre-2016 data to the post-2016 categories, enabling creation of 5-year data. For more detailed information about the 2016 changes, see the 2016 American Community Survey Content Test Report for Computer and Internet Use located at <https://www.census.gov/programs-surveys/acs/methodology/content-test.htm> or the user note regarding changes in the 2016 questions located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>. For more detailed information about the crosswalk, see the user note regarding the crosswalk located at <https://www.census.gov/programs-surveys/acs/technical-documentation/user-notes.html>.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to Labor Force Guidance.

Workers include members of the Armed Forces and civilians who were at work last week.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2012. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see [https://www.census.gov/library/working-papers/2010/demo/coverage\\_edits\\_final.html](https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html) for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See [https://www.census.gov/topics/health/health-insurance/about/glossary.html#par\\_textimage\\_18](https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18) for a list of the insurance type definitions.

Beginning in 2017, selected variable categories were updated, including age-categories, income-to-poverty ratio (IPR) categories, and the age universe for certain employment and education variables. See user note entitled "Health Insurance Table Updates" for further details.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-l' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+u' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

## SELECTED HOUSING CHARACTERISTICS

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

A processing error was found in the Year Structure Built estimates since data year 2008. For more information, please see the errata note #110.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Households not paying cash rent are excluded from the calculation of median gross rent.

Telephone service data are not available for certain geographic areas due to problems with data collection of this question that occurred in 2015 and 2016. Both ACS 1-year and ACS 5-year files were affected. It may take several years in the ACS 5-year files until the estimates are available for the geographic areas affected.

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

DP05

ACS DEMOGRAPHIC AND HOUSING ESTIMATES

2013-2017 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Technical Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities, and towns and estimates of housing units for states and counties.

Subject	Lenoir city, North Carolina			
	Estimate	Margin of Error	Percent	Percent Margin of Error
<b>SEX AND AGE</b>				
Total population	17,890	+/-50	17,890	(X)
Male	8,197	+/-298	45.8%	+/-1.6
Female	9,693	+/-293	54.2%	+/-1.6
Sex ratio (males per 100 females)	84.6	+/-5.6	(X)	(X)
Under 5 years	977	+/-243	5.5%	+/-1.4
5 to 9 years	972	+/-250	5.4%	+/-1.4
10 to 14 years	1,401	+/-282	7.8%	+/-1.6
15 to 19 years	1,062	+/-177	5.9%	+/-1.0
20 to 24 years	801	+/-267	4.5%	+/-1.5
25 to 34 years	2,136	+/-338	11.9%	+/-1.9
35 to 44 years	2,197	+/-314	12.3%	+/-1.8
45 to 54 years	2,555	+/-351	14.3%	+/-2.0
55 to 59 years	1,148	+/-212	6.4%	+/-1.2
60 to 64 years	1,245	+/-231	7.0%	+/-1.3
65 to 74 years	2,006	+/-310	11.2%	+/-1.7
75 to 84 years	912	+/-191	5.1%	+/-1.1
85 years and over	478	+/-126	2.7%	+/-0.7
Median age (years)	43.0	+/-3.1	(X)	(X)
Under 18 years	4,104	+/-328	22.9%	+/-1.8
16 years and over	14,252	+/-331	79.7%	+/-1.9
18 years and over	13,786	+/-324	77.1%	+/-1.8
21 years and over	13,226	+/-341	73.9%	+/-1.9
62 years and over	4,152	+/-445	23.2%	+/-2.5
65 years and over	3,396	+/-378	19.0%	+/-2.1
18 years and over	13,786	+/-324	13,786	(X)
Male	6,313	+/-261	45.8%	+/-1.4
Female	7,473	+/-249	54.2%	+/-1.4
Sex ratio (males per 100 females)	84.5	+/-4.9	(X)	(X)

Subject	Lenoir city, North Carolina			
	Estimate	Margin of Error	Percent	Percent Margin of Error
65 years and over	3,396	+/-378	3,396	(X)
Male	1,357	+/-204	40.0%	+/-3.5
Female	2,039	+/-240	60.0%	+/-3.5
Sex ratio (males per 100 females)	66.6	+/-9.5	(X)	(X)
<b>RACE</b>				
Total population	17,890	+/-50	17,890	(X)
One race	17,665	+/-157	98.7%	+/-0.9
Two or more races	225	+/-155	1.3%	+/-0.9
One race	17,665	+/-157	98.7%	+/-0.9
White	14,387	+/-567	80.4%	+/-3.2
Black or African American	1,831	+/-407	10.2%	+/-2.3
American Indian and Alaska Native	131	+/-136	0.7%	+/-0.8
Cherokee tribal grouping	0	+/-19	0.0%	+/-0.2
Chippewa tribal grouping	0	+/-19	0.0%	+/-0.2
Navajo tribal grouping	0	+/-19	0.0%	+/-0.2
Sioux tribal grouping	0	+/-19	0.0%	+/-0.2
Asian	55	+/-61	0.3%	+/-0.3
Asian Indian	45	+/-59	0.3%	+/-0.3
Chinese	10	+/-32	0.1%	+/-0.2
Filipino	0	+/-19	0.0%	+/-0.2
Japanese	0	+/-19	0.0%	+/-0.2
Korean	0	+/-19	0.0%	+/-0.2
Vietnamese	0	+/-19	0.0%	+/-0.2
Other Asian	0	+/-19	0.0%	+/-0.2
Native Hawaiian and Other Pacific Islander	13	+/-21	0.1%	+/-0.1
Native Hawaiian	0	+/-19	0.0%	+/-0.2
Guamanian or Chamorro	13	+/-21	0.1%	+/-0.1
Samoa	0	+/-19	0.0%	+/-0.2
Other Pacific Islander	0	+/-19	0.0%	+/-0.2
Some other race	1,248	+/-373	7.0%	+/-2.1
Two or more races	225	+/-155	1.3%	+/-0.9
White and Black or African American	113	+/-93	0.6%	+/-0.5
White and American Indian and Alaska Native	0	+/-19	0.0%	+/-0.2
White and Asian	55	+/-75	0.3%	+/-0.4
Black or African American and American Indian and Alaska Native	0	+/-19	0.0%	+/-0.2
Race alone or in combination with one or more other races				
Total population	17,890	+/-50	17,890	(X)
White	14,612	+/-576	81.7%	+/-3.2
Black or African American	1,980	+/-400	11.1%	+/-2.2
American Indian and Alaska Native	167	+/-152	0.9%	+/-0.9
Asian	110	+/-104	0.6%	+/-0.6
Native Hawaiian and Other Pacific Islander	13	+/-21	0.1%	+/-0.1
Some other race	1,269	+/-368	7.1%	+/-2.1
<b>HISPANIC OR LATINO AND RACE</b>				
Total population	17,890	+/-50	17,890	(X)
Hispanic or Latino (of any race)	1,687	+/-394	9.4%	+/-2.2
Mexican	534	+/-257	3.0%	+/-1.4
Puerto Rican	284	+/-230	1.6%	+/-1.3
Cuban	14	+/-20	0.1%	+/-0.1
Other Hispanic or Latino	855	+/-411	4.8%	+/-2.3
Not Hispanic or Latino	16,203	+/-403	90.6%	+/-2.2
White alone	13,929	+/-620	77.9%	+/-3.4
Black or African American alone	1,817	+/-408	10.2%	+/-2.3
American Indian and Alaska Native alone	131	+/-136	0.7%	+/-0.8

Subject	Lenoir city, North Carolina			
	Estimate	Margin of Error	Percent	Percent Margin of Error
Asian alone	55	+/-61	0.3%	+/-0.3
Native Hawaiian and Other Pacific Islander alone	13	+/-21	0.1%	+/-0.1
Some other race alone	54	+/-77	0.3%	+/-0.4
Two or more races	204	+/-152	1.1%	+/-0.8
Two races including Some other race	0	+/-19	0.0%	+/-0.2
Two races excluding Some other race, and Three or more races	204	+/-152	1.1%	+/-0.8
Total housing units	8,607	+/-406	(X)	(X)
CITIZEN, VOTING AGE POPULATION				
Citizen, 18 and over population	13,178	+/-442	13,178	(X)
Male	6,067	+/-292	46.0%	+/-1.5
Female	7,111	+/-298	54.0%	+/-1.5

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

For more information on understanding race and Hispanic origin data, please see the Census 2010 Brief entitled, Overview of Race and Hispanic Origin: 2010, issued March 2011. (pdf format)

While the 2013-2017 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural populations, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

#### Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.
